GENERAL INFO

Like its namesake, you can “get your kicks” with the Route66 back-lock. A general all around lightweight everyday carry knife for normal daily tasks. With a non-existent footprint, this folder leaves plenty of room for whatever else you typically carry in your pocket. Its minimalist form makes adapting from your previous knife carry a seamless transition.

Tanto Blade

Reversible Titanium Clip

Back-lock Mechanism

Clip Side

GENERAL INFO

Big, bold, creative and a makes a splash far bigger than its actual size...just like the streets it's named after in NYC and Nashville. This knife is vertically stout and feels big in the hand but disappears in the pocket with its deep carry pocket clip. The 2.85" blade is small enough to steer clear of 3" blade restrictions yet big enough for almost any task.

SPECIFICATIONS

Blade Steel	S45VN

GENERAL INFO

The "Crookedest Street In The World" would be proud of the twists and turns taken to form this awesome little beast of a knife. The dimensions have been compressed vertically from its grandpa, the Panzer, over at MKT, making the knife less intrusive in the pocket but maintaining all the ergonomic strengths of the Legacy design. The unique shape of the handle and deep thumb saddle on the back of the blade merge this knife into your hand. It holds you as much as you hold it. For every use, you'll find this knife rises to the challenge.

SPECIFICATIONS

Blade Thickness150" 0.38 cm
Handle Thickness150" 0.38 cm
Weight	3.0 oz 85 g
Hardware	Stainless Steel
Blade Finish.....	Tumbled
MSRP	\$235

GENERAL INFO

Bourbon Street...bead necklaces, hustlers, parties and jazz, linen pants and fedoras all come to mind. Whether shankin' a pimp at 3 AM or scraping something off your shoe, this knife has slick ergonomics and not only feels perfect down in the pocket but also deep carries perfectly. Imagine a knife with EVERYTHING reduced to the most utilitarian and minimalist form...that's the Bourbon, an elegant entry into American-made knives. The time-tested Back-lock mechanism is no frills, rock solid and 2-hand opens. This knife is made with "rack hardware" for servicing wherever you are on the globe...

GENERAL INFO

A knife designed for pilots, aviators, and anyone with emergency survival needs, crafted with the cramped quarters of the cockpit in mind. A tribute to Lt. Frank Luke of Arizona credited with 18 WWI air victories and awarded the Medal of Honor, the Luke Airman knife embodies precision and reliability for those who demand excellence in a slightly more compact package than the more traditional Military field and fighting knives. The knife mounts in a top grain leather premium quality sheath in a drop style for belt or harness carry.

GENERAL INFO

Named after the legendary first king of Rome, the Romulus is a fun and modern take on the classic Gladius blade carried by Roman soldiers. No army so revolutionized warfare as the Romans and throughout their technological innovations and changes in warfare there is one thing that remained almost unchanged: the personal carry knife of the foot soldier. "A dagger of dual edge, ambidextrous grip and sufficient length and weight to fell an enemy in close quarters..." The Romulus mounts in a top grain leather premium quality sheath in a drop style for belt or harness carry.

SPECIFICATIONS

Blade Steel	1095CV
Handle Material	G-10

The San

Fire Starting Dimple

Top Grain Leather Sheath

GENERAL INFO

This unobtrusive fixed blade pays homage to the early bush people of Africa called the "San." A full-tang design for ultimate strength, balance, hard use comfort and field craft improvisation. The fire divot aids in wood drill fire starting and handle was designed for comfort in both carry and use. The San mounts in a top grain leather premium quality sheath in a drop style for belt or harness carry.

Top-Grain
Leather Sheath

GENERAL INFO

Adapt, Improve and Overcome...mantras of school-house cadre Marine Corps wide. This knife was developed off a crayon sketch handed to Greg by a dear friend and Force Reconnaissance Marine. The knife is reissued in 2024 with a more modern geometry and has been dehorned for a more human friendly carry. The blade is not serrated but "dull-notched" for lashing with paracord and better securing the blade for improvised spear strength, the fire starting divot is optimal for typical left-hand holding and the crowbar has been replaced by a grooved pommel for hard striking. The AIO II mounts in a top grain leather premium quality sheath in a drop style for belt or harness carry.

SPECIFICATIONS

Blade Steel	1095CV
Handle Material	G-10
Overall Length	11.3" 28.7 cm
Blade Length	5.3" 13.5 cm
Blade Thickness190" 0.48 cm

SKU: MMS037

GENERAL INFO

The "2024" is our modern take on 1918 Trench knife of WWI. The weak point of the M1918 has always been where the blade and handle meet. We have solved that issue with our full-tang and handle-slab construction. In the scariest moment in a young soldier's life, this knife stabs, slashes, smashes, bashes and crushes from every direction. Yes there are fighting knives for a very few highly trained blade enthusiasts, but it would be hard to imagine anything scarier than being suddenly stuck in close quarters with an adrenaline jacked young soldier fighting for his life with this tool in his hand. For that use it is SPOOKY but otherwise it's just cool as hell...

SPECIFICATIONS

GENERAL INFO

The STA design was developed for a friend of Greg's and former Marine Corps sniper. He wanted a simple edge design to accommodate the largest number of varied users and some typical tools he often saw used in the field doing the scout sniper training: 1. 1/2" pommel wrench 2. Flat blade driver hilt and #. TLR (Through Looking Range Finder) good out to 400 yards/meters with minimal practice and the batteries will never wear out! The STA Sniper mounts in an American Made top grain leather premium quality sheath in a drop style for belt or harness carry

SPECIFICATIONS

MAIN STREET Knives **Jungle Fighter**

False Edge

GENERAL INFO

This is a pure tactical use knife. The design, handle and sheath are meant to hug close to the body so as to avoid excessive snagging in heavy vegetation. The dual grind is particularly suited for piercing and deep choils accommodate both standard and fully choked grips for heavy and finesse type applications. The Jungle Fighter mounts in a top grain leather premium quality sheath in a drop style for belt or harness carry

GENERAL INFO

The UDT knife is a design Greg developed for a family member in the Naval Special Warfare community. The first run of these knives were given to a graduating class on Coronado and have served globally. The concept was born from pragmatic UDT needs, in a compact package and requiring as little "real estate" on their kit as possible when mounted.

GENERAL INFO

With plucky double entendre to its name, the Fighting Utility Knife is a compact powerhouse, delivering both functional utility and elegant CQB versatility. The concept is born of Indonesian/ Malaysian angled blade/handle philosophy which is well suited for reverse grip cutting and trapping in CQB applications. The FUK mounts in a top grain leather premium quality sheath in a drop style for belt or harness carry.
